Also please understand that the above information you provide, as well as the information we ask for will help us match the best home for the particular needs (if any) of the rescued shepherd. Example If the Shepherd you are inquiring about is aggressive in any way, then a stronger pack leader will be needed. If the shepherd you are inquiring about is shy in any nature, then a softer pack leader will be needed.

Please be advised that the pet you are applying for as well as all of Misfit Shepherds adoptable pets were once ripped out of a place they called home. Our intention in this process is to ensure that no Misfit Shepherd will go through this again. We want our Misfit Shepherds to go to furever homes with their new family.
